Friendly

Fire - Retardant

Termite - Proof

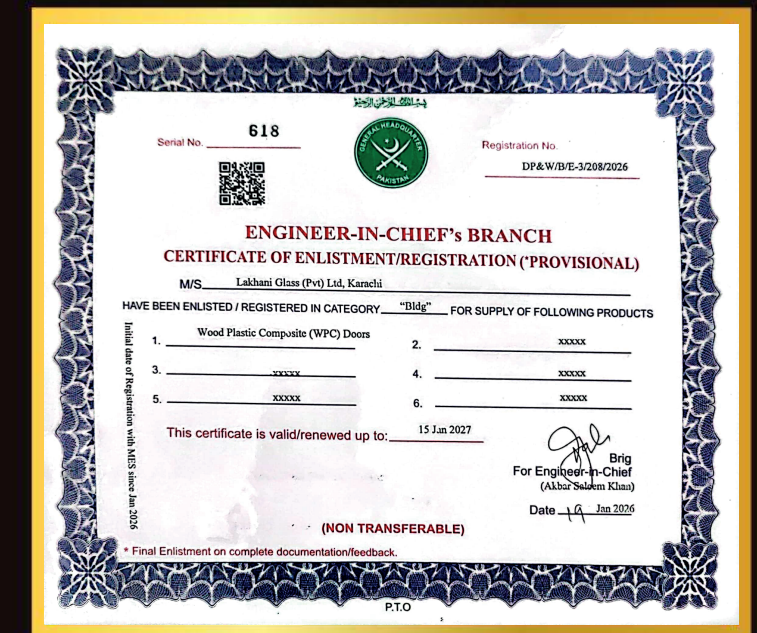

What are WPC doors?

WPC (Wood Plastic Composite) doors are modern doors made from a blend of Real powdered wood and thermoplastic materials. This combination creates a strong, durable, and moisture-resistant product that offers the natural look of wood with enhanced performance.

Unlike traditional wooden doors, WPC doors are an eco-friendly and cost-effective alternative to solid wood doors, offering long-lasting durability with minimal upkeep.

MES Approved

Features:

Wood-Like Finish

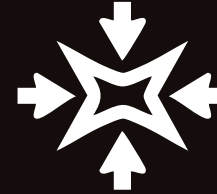

Eco-Friendly

100% Termite Proof

Moisture Proof

No Shrinking

100% Water Proof

High Density

Fire Retardant

High Load Bearing Strength

100% Recyclable

Clean & Odourless

Tough & Well Finished

Carpenter Friendly

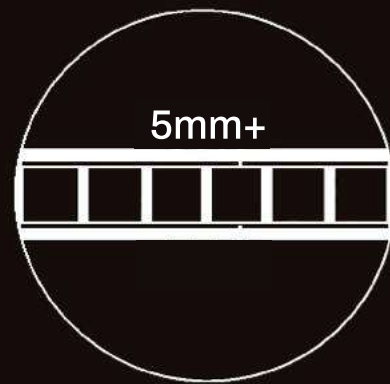

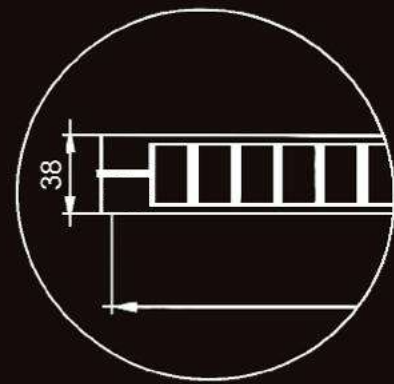

Acid / Alkali Resistant

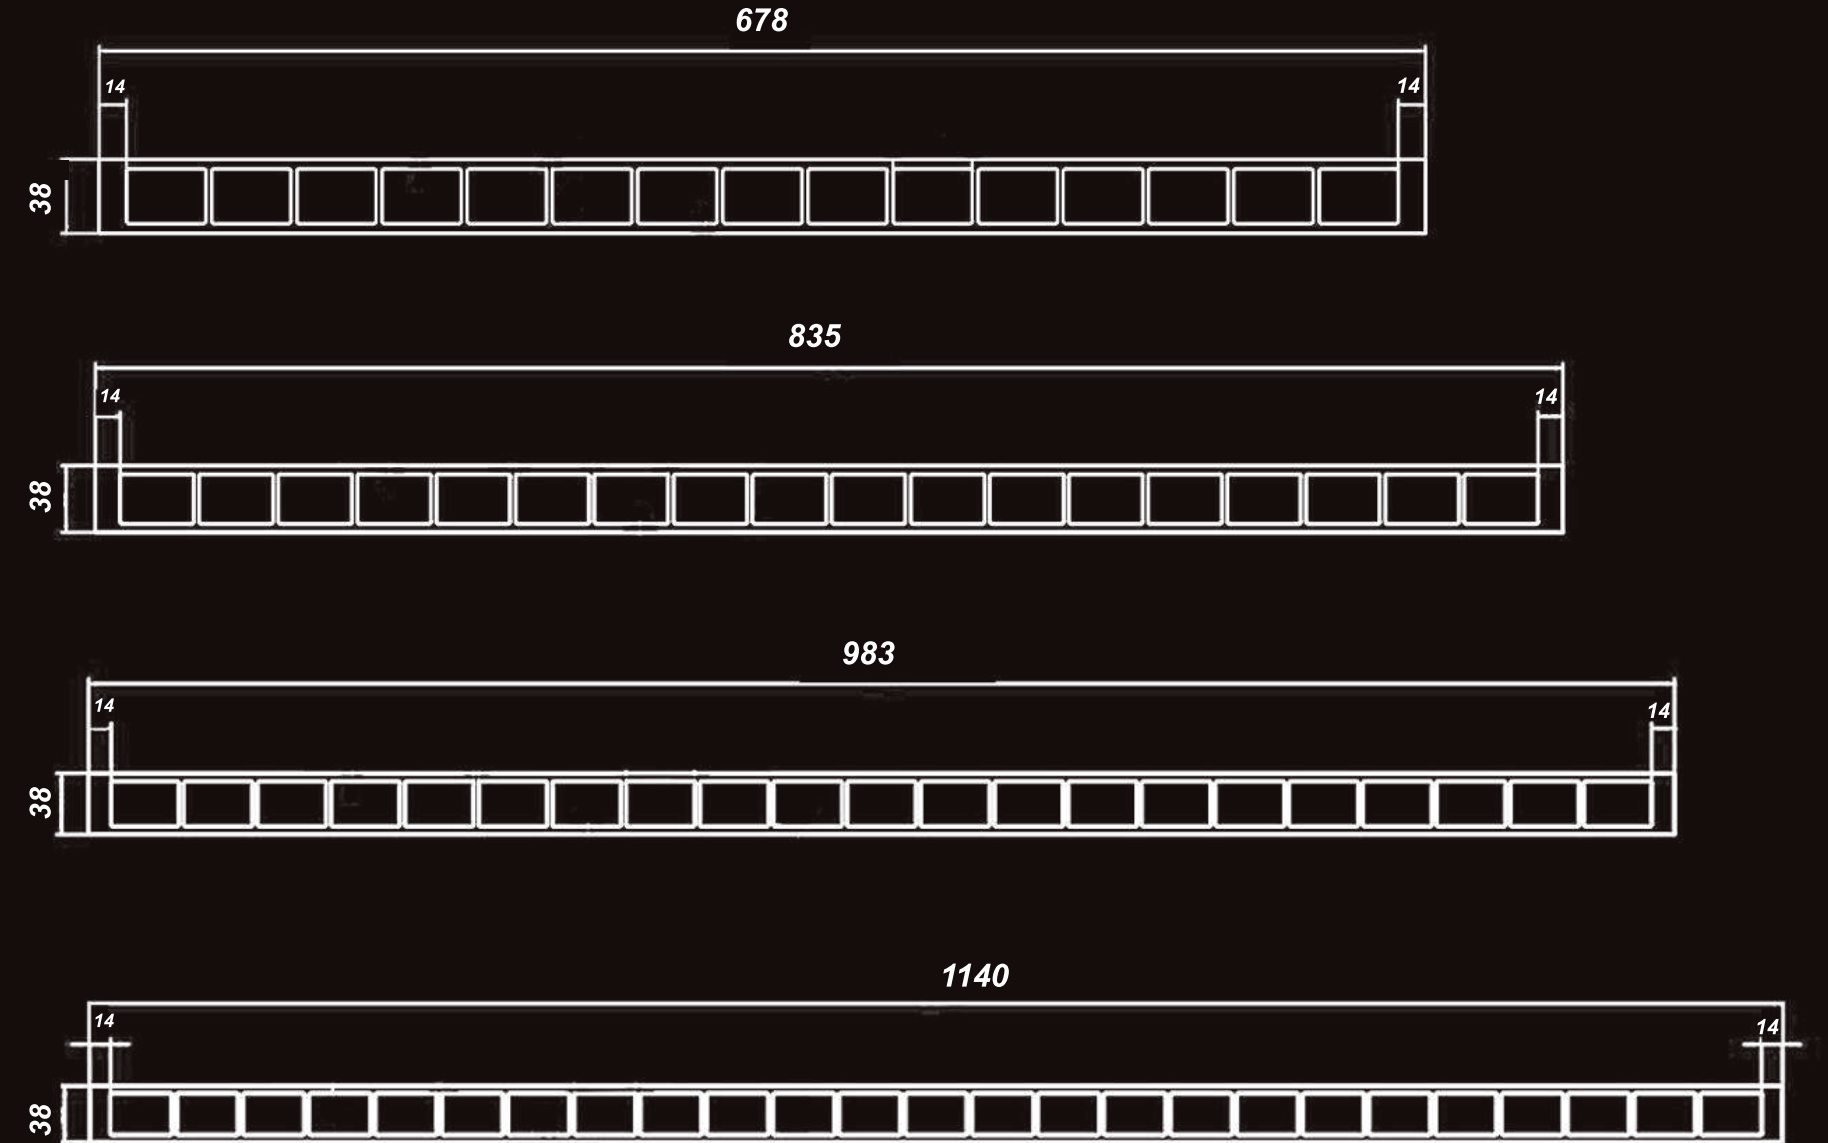

Sound Insulation

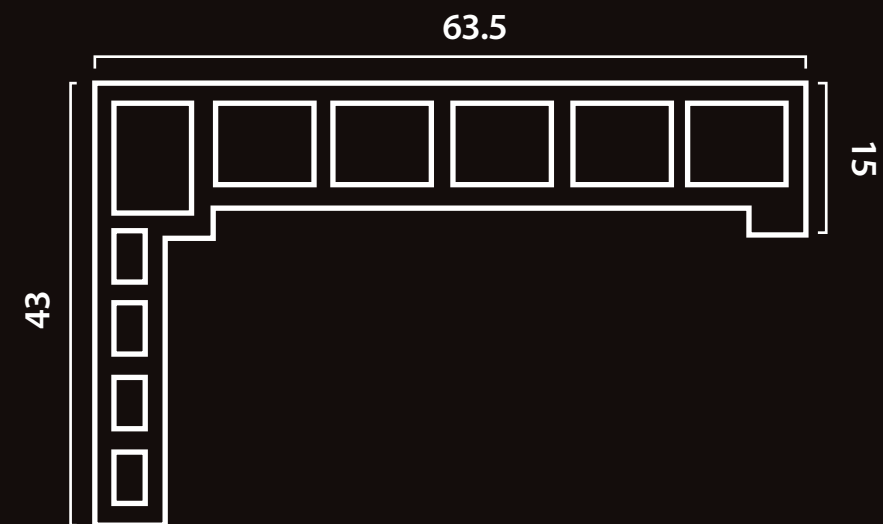

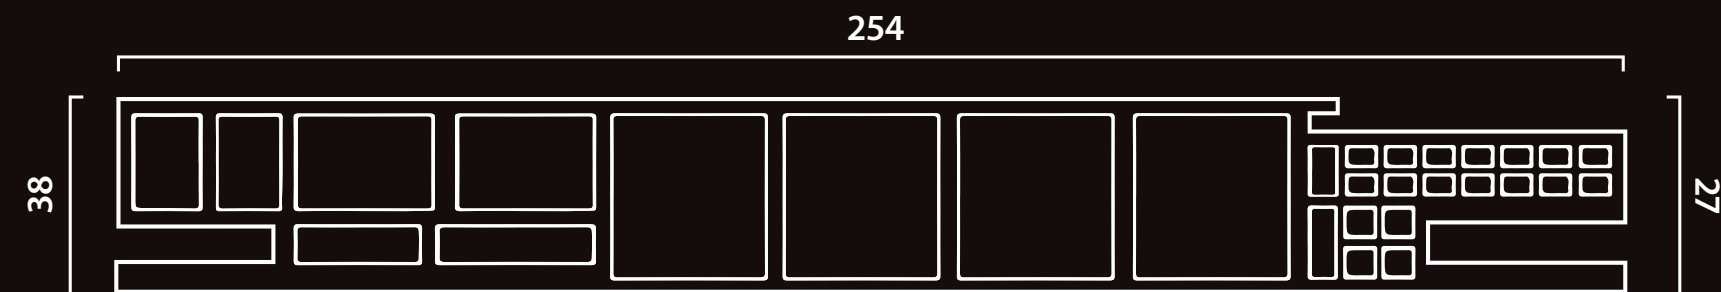

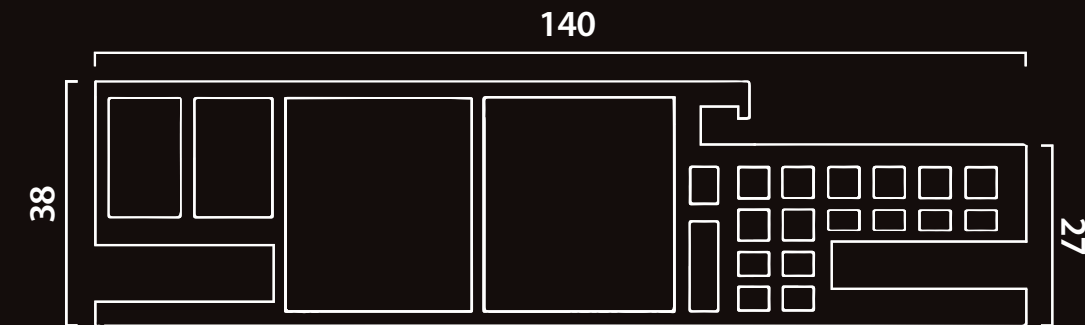

38mm Thick Doors.

Door leaf
Thickness:**38mm**
Width:**678-1140mm**
Height:can be customized
Wall thickness 5+mm
Works for CNC design

Frames and Borders Options

Our Finishes:

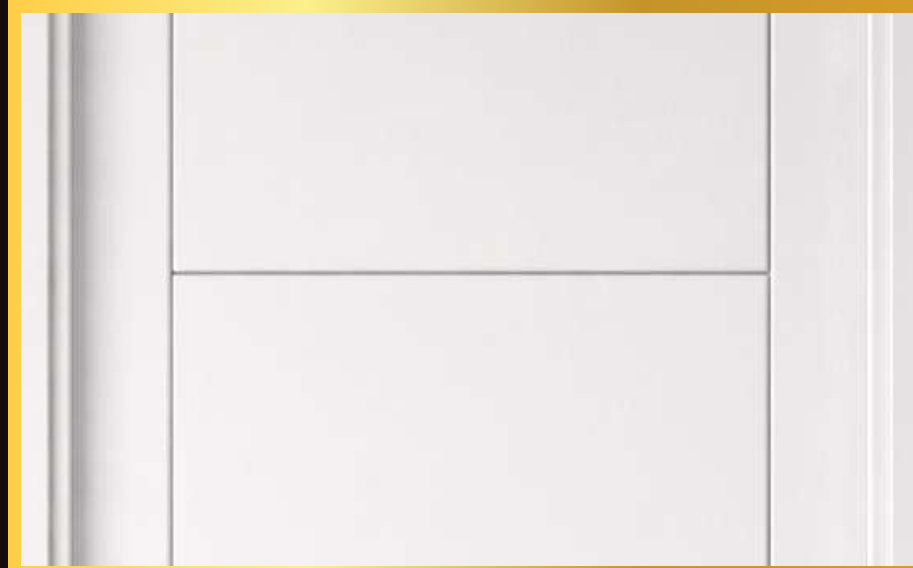

Any Design Can Be Manufactured In Any Finish And In Any Color.

Smooth Finish

(For Polish/Paint)

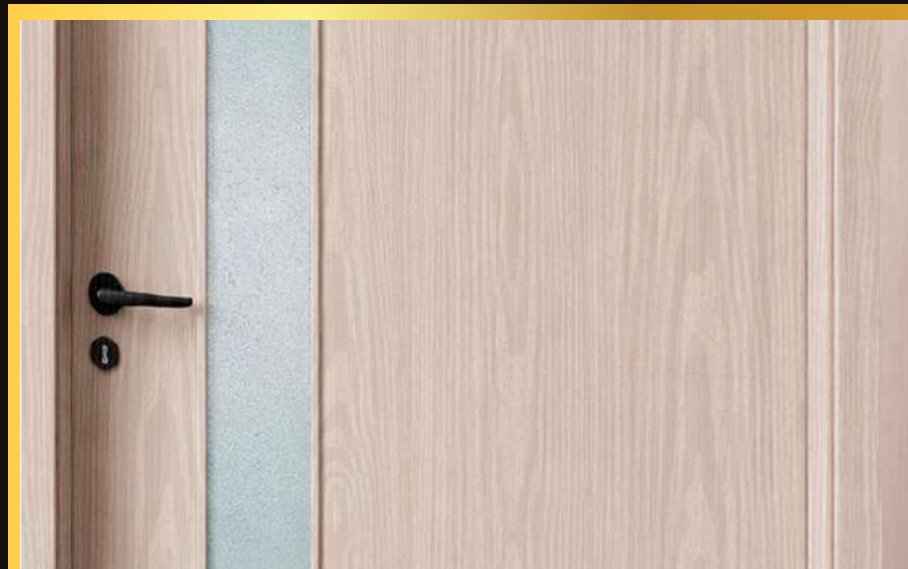

Experience a flawless surface with our Silky-Smooth Finish, designed for spaces that demand a clean, modern look. Its refined texture enhances the overall elegance of the door, making it perfect for contemporary interiors where simplicity and sophistication go hand in hand.

Monarch Teak Embossed Finish

(For Polish/Paint)

Our Embossed Finish adds character and dimension through artistically raised patterns. This finish brings a tactile richness that stands out visually and to the touch ideal for customers who appreciate decorative detailing with a premium feel.

Wood Grain Laminated

(Ready To Use)

Bring the warmth of natural timber into your home with our Wood Grain Laminated Finish. Crafted to replicate real wood textures with stunning clarity, it offers the beauty of wood without the maintenance. Durable, stylish, & timeless perfect for both classic & modern settings.

Available Colors:

Ash Grey Oak

Honey Oak

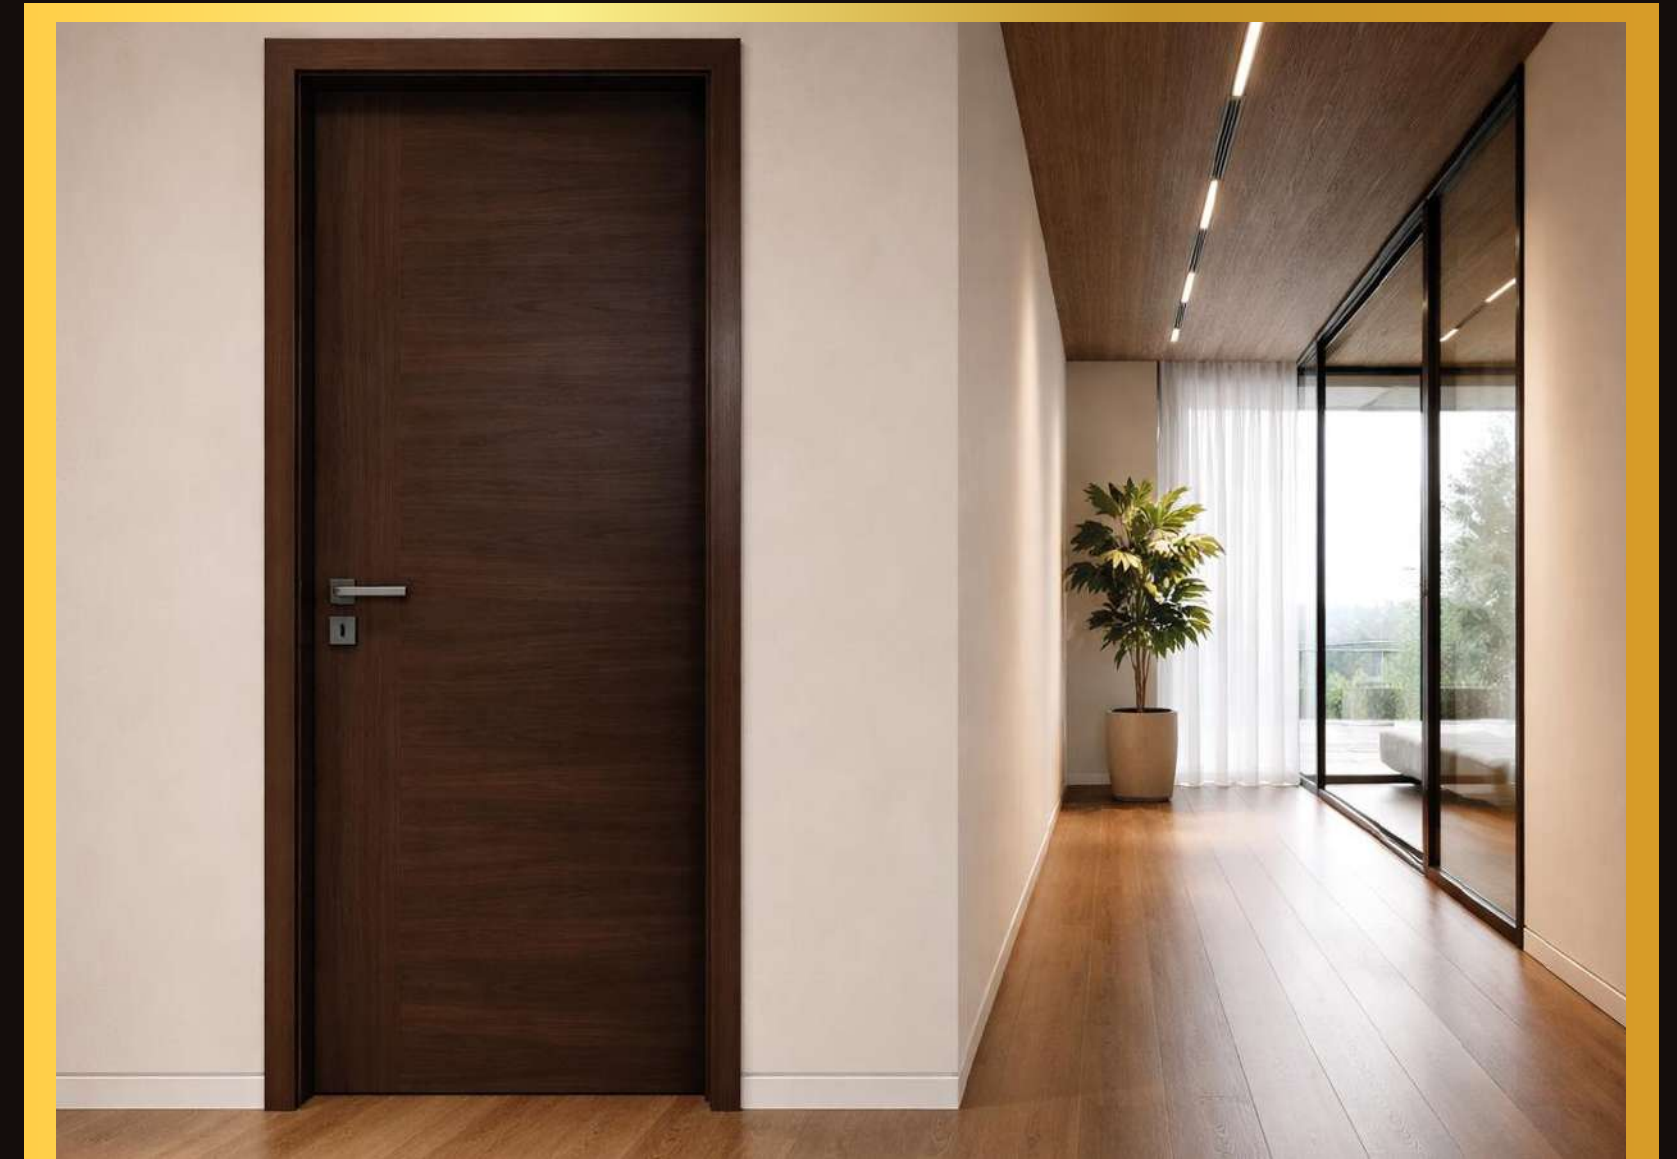

Midnight Black
Teak

Brown
Walnut

Premium Brown
Elm

Our Design Editions

1 CNC DOORS

WPC CNC doors are precision-crafted using advanced CNC cutting technology, creating detailed patterns and modern designs. They are ideal for interiors that require custom aesthetics with durability and sharp finishing.

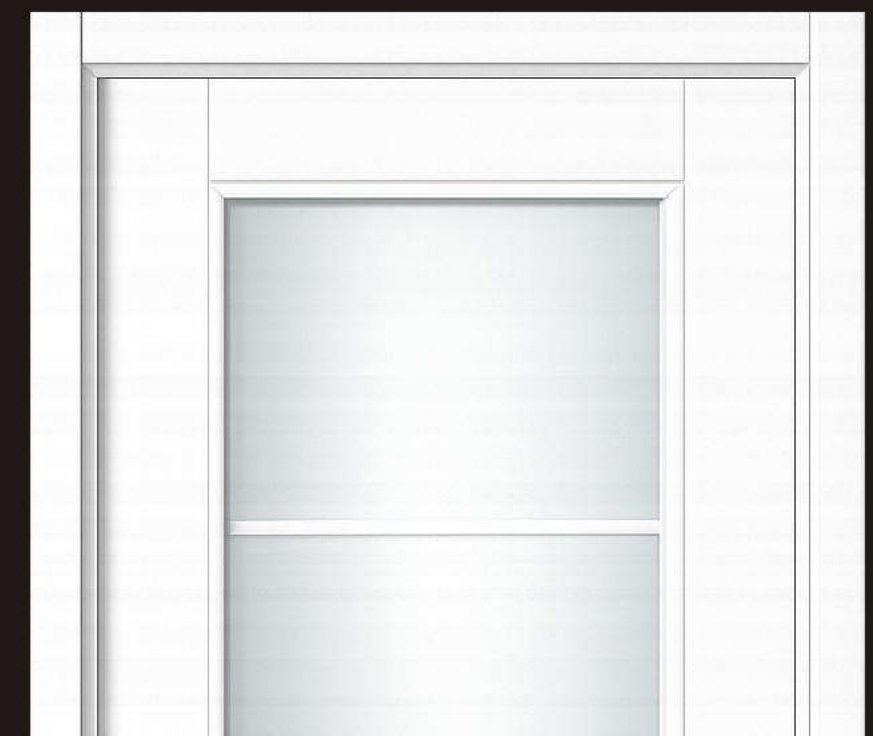

2 MOULDING DOORS

WPC moulding doors feature elegant raised panel designs, offering a classic and timeless look. They are perfect for spaces that need traditional styling with the strength and Zero maintenance of WPC.

3 GLASS DOORS

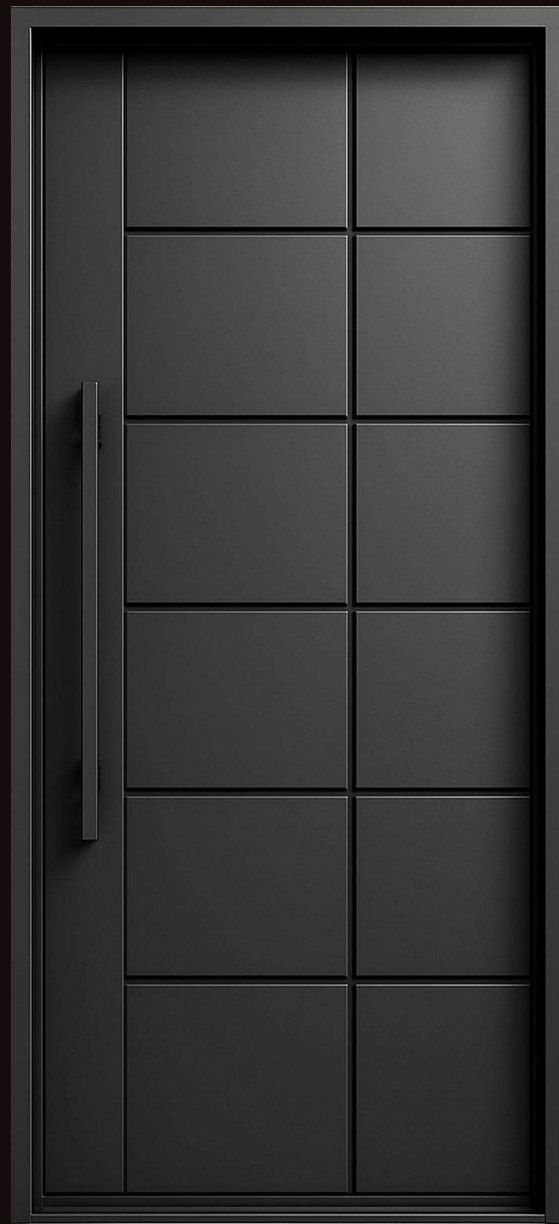

WPC glass doors combine solid frames with glass panels to enhance light flow and openness. They are ideal for modern interiors where visibility, brightness and sleek design are important.

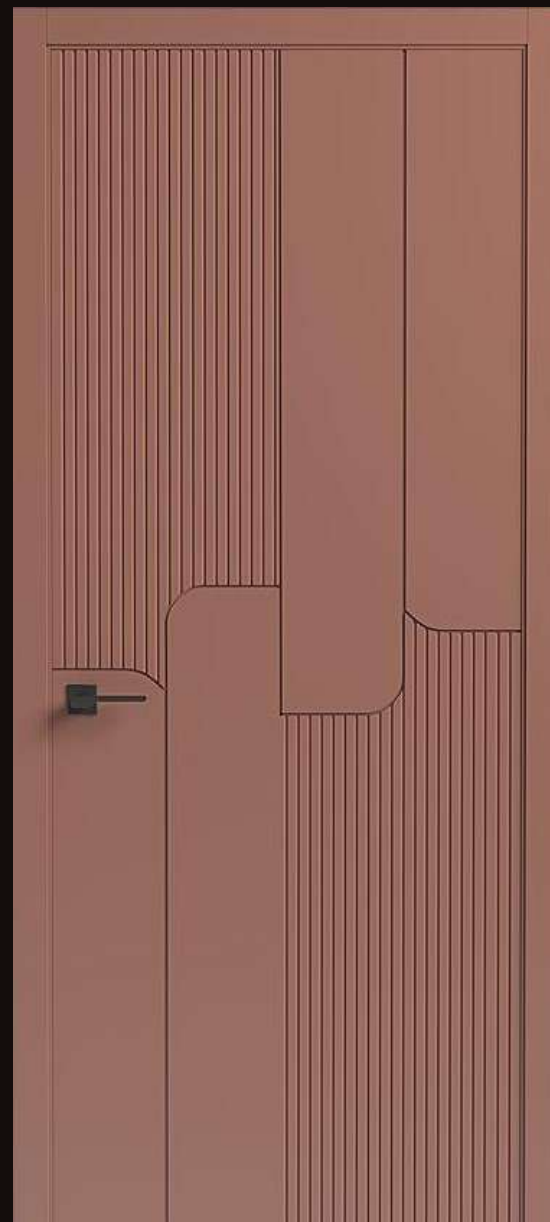

CNC DOORS

WPC CNC doors blend modern design with long-lasting strength. Made from wood-plastic composite and precision-cut with CNC technology, they offer sharp patterns, smooth finishes, and excellent resistance to water, termites, and warping. Perfect for stylish interiors that need durability with a premium look.
